Technical Skills

Languages and DataBases: C++,C#, JavaScript, SQL, MySQL
Development Skills: HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, React.js, ASP.NET, MVC, .NET Core, SQL Server, MongoDB
Other Skills and Technology: Git and GitHub

Experience/Projects

Coforge   **Aug 2025 – Present**
Senior Software Engineer   *Noida, India*

- **Worked on OpenBanking Project**, integrating financial data from **5+ aggregators** including Plaid, MX, Finicity, Akoya, and Yodlee.
- **Built 15+ backend APIs and data pipelines** to ingest and normalize user financial data, improving processing efficiency by **35%**.
- **Integrated ChatGPT API** on the backend to generate real-time insights, increasing decision-making speed for lenders by **40%**.
- **Developed a responsive frontend dashboard** to visualize AI-driven insights and creditworthiness scores, enhancing lender UX and reducing manual review time by **30%**.
- **Implemented a modular architecture**, reducing aggregator onboarding time by **40%** and boosting overall system scalability and maintainability

Incedo inc.   **Sep 2023 – Aug-2025**
Software Developer Engineer   *Gurugram, India*

- Worked on **Mastercard ICCP**, implementing **multitenancy architecture** to support multiple clients seamlessly and reducing onboarding time by **25%**.
- Developed 10**+ backend endpoints** for Mastercard API integrations, improving API efficiency by **30%**.
- Reduced **card creation failures by 40%** through **validation endpoint enhancements**, improving reliability.
- Optimized **API calls to Mastercard**, reducing redundant requests by **35%**, increasing system performance.
- Contributed to the **Proof of Concept (PoC) for Mastercard ICCP**, defining feasibility and architecture for scalability.
- Implemented a **Customer Identification Process**, improving **user authentication accuracy by 50%** by evaluating name matching with Mastercard card owners.

Personal Projects/Awards & Achievement

Takshila Education institute management system   **May 2023 –Aug 2023**

- Developed a comprehensive Institute Management System using React and .NET, enabling seamless student and faculty management, which **improved administrative efficiency by 35% and reduced manual   processing errors by 20%.**
- Integrated advanced features such as **real-time notifications** and **automated reporting**, enhancing communication and reducing report generation time by 40%.

Certification

- **AWS Certified Cloud Practitioner**

  Amazon Web Services (AWS) | [November, 2023]

Education

Bharati Vidyapeeth College of Engineering Delhi   **July 2019 – July 2023**
Bachelor of Technology   *New Delhi, Delhi*
